DREAMS U Homeschool Experience

Let your child experience the world where there are NO EDUCATIONAL LIMITS!

Homeschooling opens up a world your child doesn't get to experience in a school. Parents I am here to tell you that you can do this! I homeschooled my daughter with special needs during a time where no one was even considering it. I had to create my own curriculum and make sure it met educational requirements. Needless to say my daughter received a great education and reads at an efficiently high level. So if I could do it 15 years ago you surely got it with DREAM University.

Homeschooling Information

Homeschooling is not as difficult as you may think it is. All it takes is a daily schedule and an efficient online homeschool course. DREAMS University provides daily online education for youth ages 5-14. There will be daily instruction provided by educators that have experience in the educational field.

DREAMS University core curriculum is driven by the STEAM ideology. STEAM is the fastest growing educational curriculum studied around the United States. The philosophy behind STEAM is to stimulate youth to enjoy and be more excited about the disciplines of Science, Technology, Engineering, Arts & Math.

DREAMS offers 3 educational curriculum levels for our scholars: K-2, 3rd-5th & 6th-8th

COURSE COST

COST \$5-15 PER DAY

DREAMS University bills by the hour to make it affordable for any parent that wants to homeschool their scholar. DREAMS U allows parents to customize their child's educational plan.

Packages range from \$5 per day for 1 hour classwork.
(Which is as low as \$20 per week for 5 hours of educational material.)

COURSE REQUIRED MATERIALS

A reliable computer with internet access

Each scholar enrolled in DREAMS U homeschool courses will need to be registered in the program and dedicated to their education.

COURSE DEADLINE: Open Enrollment.

There are no course deadline. Scholar works at their own pace.

Age Requirement: 5-14 years old
